WINEMAKER'S NOTES

The 2015 harvest brought fully mature, sound fruit into wineries across Colorado. The Cabernet Sauvignon that we procured from our trusted grape growers was no exception. Very good grapes often lead to very good wine, and our approach to a high quality finished product begins with minimal intervention. We consider stewardship and diligence to be of the utmost importance in the creation of wines. Our Winemaker considers austerity, simplicity and balance to be the earmarks of authentic, top quality wines.
